DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Applicant's election of Group I invention with claims 1-18 in Paper No. 5 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 2-18 are objected to for the following reasons:

In each of claims 2-18, the recitation of "the appliqué" does not find proper antecedent basis and is not consistent with the preamble of their independent claim 1 which defines "a single layered printed fabric". Appropriate correction is required.

In claim 18, line 1, the phrase "the second path" should be changed to --the second portion-- so as to overcome an apparent oversight.

Claim 1 appears to distinguish over the prior art of record and thus is allowed.

Claims 2-18, if corrected to overcome the above objection, would also be allowed.

The following is an examiner's statement indicating allowable subject matter:

The claimed structure of a single layered printed fabric including the defined various printed portions to simulate stitching of a first portion to a second portion and particularly to simulate an appearance that the first portion is a top layer stitched onto the second portion which is the bottom layer is not taught or fairly suggested by the prior art of record.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
